OUR CLIENTS

About Us

Facilitated with state-of-the-art machinery and latest technology, we, Allied, have developed core competency in manufacturing pharmaceutical equipment. Incepted in the year 2006, we have been able to gain tremendous reputation among our customers due to the unmatched quality standards of our products & services. We are well known as one of the leading manufacturers, suppliers and exporters catering to the needs of pharma industries. The superlative assortment offered by us encompasses Punch & Die Storage Cabinet, Clean Room Furniture, and more. All these are fabricated in strict compliance with the set industry standards and cGMPS norms.

We have developed a robust manufacturing facility in order to meet the ever growing requirements of our vast clientele. Well equipped with cutting edge technology and modern set of machinery, we are able to develop a quality assured range in accordance to the client specific requirement. This helps us in attaining utmost customer satisfaction as well as highest level of efficacy in our operations. Over the years, we have garnered a wide customer base across the world.

Why Us?

Following are some of the distinguishing factors that set us apart from other business entities in this domain:

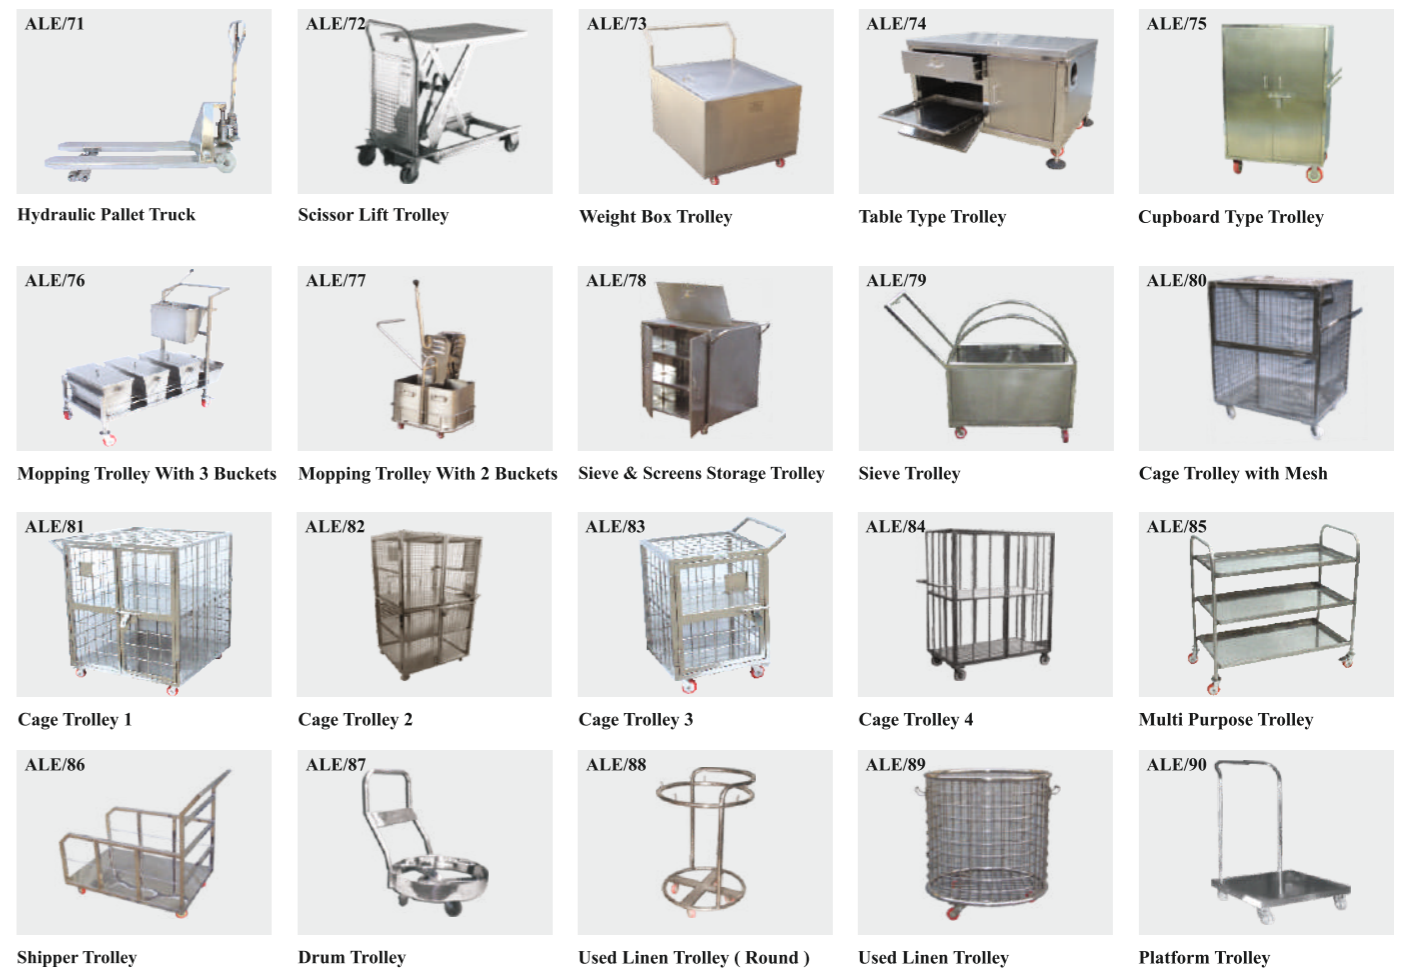

- Quality assured products
- Market leading prices
- Innovative business approach
- Strict quality control management
- Well equipped manufacturing unit
- Diligent team of professionals
- Prompt delivery of consignments.

Punch & Die Storage Cabinet (PDC)

Punches & Dies are considered to be the heart of Tableting. Tooling must be stored carefully to prevent corrosion. Among the several storage methods available and practiced, storing of tooling in Cabinets is most preferred and recommended. ALLIED is a leader in the manufacturing of precision engineered Tablet compressed Tool Storage System also known as Punch & Die Storage Cabinet. In addition, we also offer customized range of Non Standard Punch and Die Cabinets for **Kilians, Cadmac, ZP, Manesty, Korsh, Kikusi, Ronchi Tooling.**

Cabinets are fabricated using high grade steel such as SS304, SS316, SS304L, SS316L. Our range is absolutely safe to store sensitive equipments. The following alluring features characterize our range:

- Durability
- Dimensional accuracy
- Smooth and noiseless sliding of doors
- Compact and sturdy design which occupies less floor space
- Central locking arrangement provided
- Corrosion resistance.
